Performance.

Reliability. Efficiency.

Leading control solutions to measure, regulate and ensure optimal volume and mix of fuel and air to improve power output, efficiency and emissions.

A Commitment to Excellence

Every day, our dedicated team members make a meaningful impact on the industries we serve and the communities where we live. Through innovation, engineering excellence, and a focus on sustainability, we continue to lead the way in transforming energy systems for a better future.

Our Vision

To be a global leader in industrial machinery parts, recognized for our commitment to quality, innovation, and customer satisfaction.

Our Mission

To provide exceptional value by offering the right products, at competitive prices, backed by superior service.
